

Question

1 How do you want Cradley & Storrige to develop? Examples may

1.1 As a Dormitory Village where most people live and **Responded**

Y	16	N		N/O		Of total	21.62%
Not just dormitory village							
Notihng wrong with commuting							
with butchers and pub							
Most realistic option							
Creates sterile depressing area							
Nice as it is							
Would seriously dilute feeling of a caring community thus becoming a lonely town suburb							
It is difficult to get a balance in this day and age with modern day working practices where cummuting many miles a day is the normal pattern for many							
There will of course be an element of this as there is not the employment to sustain all the occupants of the village. Much of the housing stock is large and expensive which tend to be occupied by proffesionals who have to commute.							
this is not a good thing							
It is more complex these days with the opportunity to work from home.							
This would encourage over-development of the area without faciliateis such as transport, shops / post office and employment.							
Too much traffic							
With all the pressure on housing, there must be some sympathetic housing development and with a view to sustaining the village for families and their growing siblings of financial considerations and of course newcomer. Development should also be aimed at encouraging a community spirit and sense of belonging.
