Question

How do you want Cradley & Storridge to develon? Examples may be 1

iow (do you want cradiey & Stornage to develop? Exam	pies may be:
1.4	Your Suggestions	Responded

Υ	34	N	10	N/O	6	Of total	67.57%
	•			•			

Keep what we have and reinstate shop and PO

Convenience store

Your Suggestions

People do not support local concerns eg Legion

Not all services can be self contained so balance needed to reach out to wider services and encourage people into the village

Shop on E side of village incl deli plus eg hairdressers

No high density development

Community run shop

Need anothewr shop at Old Cradley end. Also more mixed community economically.

More sports facilities for children and adults

Combination of all would allow appropriate development and retain character

Needs a focal point, heart to the village

We live here as we like it as it is

We need vision for the future and of course the will to see it through. Encouraging of local small businesses(home based) by enabling support(faster broadband) and imaginative planning vision (central community area heart)

Land next to Pixiefields needs (essential) good vehicular and pedestrian routes perticularly near 'The Crown'/Surgery.

There is a need for further development to provide additional housing stock over the next 10 years as UK population grows. Further small light industrial and office units might also help provide more local jobs, which will in turn help with the above.

A combination of supporting existing communities and attracting new faces to live and visit.

Development should be relative to the size of the village - Why not a combination of 1.1 and 1.2?

No further comments.

We need a post office & shop

Minimal rationalisation of boundary

Build up Storridge

Who in their right mind would ever buy the St Katherine's Field 'Development'

Does the village have a heart? I suggest it is disconnected and disjointed and that problem needs imaginative solutions.
